

I am against the Low Power FM Signal because we/I would lose our national christian radio station signal..K-Love. Many people do not attend a church and K-Love provides us with public access to christian music (safe music) and "safe" current public news updates and annoucements. If we lose the nation-wide K-Love signal it would be a terrible, terrible loss, especially for our children (my 15 year old son included. Please reconsider..Thank you
